

Big LNG expertise. Also available in small LNG plants.

Air Products has contributed to the success of more LNG operations than any other company. And we bring our full capabilities to LNG projects of any scale. From peak-shaving plants producing less than 0.1 MMTPA to the largest base-load facilities, on land or off-shore. Our LNG team can help you get a plant up and running at the highest efficiency—on time, on budget, and in any climate. To learn more, call 800-654-4567 (US), 1-610-481-4861 (worldwide) or visit us online.
